Dear Dermatology and Pathology colleagues,

This workshop cum CME is being organized as a part of the dermatopathology SIG activity, concentrating mainly on the basics of dermatopathology, including identification of the normal structures in the skin. 'Hands-on' microscopy would be integral to the program. On behalf of the organizing committee, we invite you all to make use of this excellent opportunity and request the participation of PGs, all the postgraduate teaching faculty and practitioners to attend and make this program a big success.

REGISTRATION is FREE but registrations on or after **23th June** will incur a late/ spot registration fee of **500Rs**. Delegates wishing to participate in the **quiz** or interested in **case presentations** have to register and send their cases/ interest- on or before **June 15th!** Register yourself online [by clicking here](#) or by emailing the registration form to skattili@gmail.com.

Highlights of the program

Slide viewing workshop- Hand's-on demo of common dermatoses and basic pattern recognition. Limited places available (on first-come, first serve basis). *Please register as soon as possible.*

Live discussion of slides with projection of the microscope onto the big screen

Case Presentations (Theme- Thank god for histopathology!): Case presentations specifically highlighting the role of histopathology, are invited. Interested delegates should send their presentations **on or before 15th June 2019** to prathy.yakkala@gmail.com. The best presentation would receive an award.

Quiz (open to all): A team shall comprise of 2 delegates. If we have a number of interested participants, a preliminary round of screening consisting of MCQs in dermatopathology will be held and thereafter, 4 teams will be on the stage for the final.
